

TONONE

PROJECTS

## ABOUT TONONE

How can we apply our fascination for traditional mechanics and craft tools into state-of-the-art design? This quest was the starting point for the products of lighting label Tonone, known for the use of characteristic construction tools as a visual and a functional basis for innovative product design.

This vision was well illustrated by the design of the Tonone-line up: the Bolt-series, followed by the hand-blown glass series Atlas and Ella, the sturdy lamp Mr. Tubes and the LED serie Beads. In 2022, Tonone added two new series to its collection: the elegant Bella and the portable ONE. The Bridge linear LED lamp was launched in 2024.

In celebration of Tonone's 10th anniversary, the Bolt10 was recently introduced—an evolution of the original Bolt design, combining iconic elements with updated technology and functionality.

Tonone was founded in 2013 by designer Anton de Groof and is based in the Netherlands. The Tonone design team works with local artisans to produce their products. During the design and manufacturing process, the entire life cycle of the products is taken into account when it comes to sustainability, efficiency and logistics.

# BUNCH

ZWOLLE, THE NETHERLANDS

At the new BUNCH AGENCY office in Zwolle, Interior Vitamins created a bold and playful interior. In the ground-floor kitchen, the vibrant Tonone Bridge pendant steals the show.

Its bright orange hue and graphic silhouette contrast beautifully with the soft curves and warm tones of the space — adding both balance and visual tension. A true statement piece.

# INTERIOR VITAMINS

HENGELLO, THE NETHERLANDS

In the region of Twente, Charlotte's interior is a reflection of her creativity and passion for design. From an early age, she was drawn to styling and decoration—an interest that still defines her home today.

Charlotte combines the ONE Spot with various other ONE fixtures throughout her home, such as the ONE Desk, ONE Floor, and ONE Knob, creating a cohesive and inspiring lighting plan.

# LEXSON

BREDA, THE NETHERLANDS

Lexson is a distributor of fashion and lifestyle brands based in Princenhage, Breda, with two industrial minimalist showrooms. They serve around 750 fashion stores, mainly with Scandinavian brands.

Several Tonone lamps have been used in their interior: the Beads Pendant above the kitchen island, the Beads floor and table lamps throughout the space, and the Bella table lamp in Striking Orange as an eye-catcher.

# JM VAN DELFT & ZN

DRUNEN, THE NETHERLANDS

JM van Delft & ZN supply and assemble windows, doors and façades in aluminium, steel and stainless steel since 1907.

In the JM van Delft & ZN Office is the design pendant lamp Mr. Tubes LED Connect a real eye-catcher. An amazing construction of lamps and light. You can see the design wall lamps Mr. Tubes LED Wall and the Bolt Wall Sidefit Mini in the color Pure White.

# THEATER DE KATTENDANS

BERGEIJK, THE NETHERLANDS

The Kattendans is a theater that attracts well-known artists. Architect Peer Bedaux designed the building in the early 1990s. In 2022, the entire project was renovated.

While retaining the characteristic planes and lines of De Stijl, Diederendirrix gave the building a new and more spacious look.

Several lamps from Tonone were used in this project: the Bolt 10-pack Pendant, Bolt Table, Beads Pendant, Beads Wall and Beads Floor.

# HOTEL THE DUKE

'S-HERTOGENBOSCH, THE NETHERLANDS

Boutiquehotel The Duke can be found in the heart of 's-Hertogenbosch, next to the famous Sint-Jans Cathedral.

Anton de Groof has designed this amazing Hotel together with The Duke. There are several Tonone lamps, including the Bolt (specials) and the Mr. Tubes.

The Duke Hotel is his home and is the result of his quest for unforgettable experiences, his keen eye for even the smallest details, his principles in relation to quality and comfort and his attraction to remarkable people with active lifestyles. A premium hotel, designed for the sophisticated traveler. That's The Duke Hotel, a remarkable place for remarkable people.

# MORGAN & MEES

AMSTERDAM, THE NETHERLANDS

Morgan & Mees is a boutique hotel, restaurant, and cocktail bar located in Amsterdam Old-West, housed in a monumental building from 1800. The interior, designed by Anne Claus, combines vintage and contemporary elements, inspired by Paris.

The impressive Bolt Chandelier 18 arm design lamp hangs prominently in the restaurant. The Bolt Chandelier 6 arm has been given a beautiful place in the hotel.

## CONTACT
