LUMI small

Design by Anton de Groof, 2025

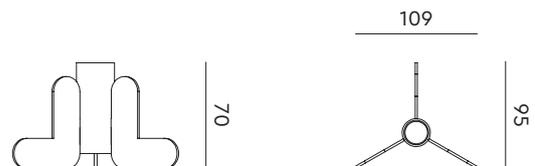

With the Lumi candleholder, Tonone introduces a design where engineering, simplicity and atmosphere come together. Made of untreated brass, Lumi radiates warmth and slowly develops a rich patina, giving each piece its own character. Its construction is ingeniously simple: loose brass tubes and legs slide together without tools to form a clean, graphic shape.

Lumi comes in three sizes: small, medium, and large (holding one, three or five candles). The candleholder ships flat and fits through a standard mailbox, making it an ideal, stylish gift. Suitable for dinner and LED candles with a diameter of up to 22 millimetres. Candles not included.

Type	Candlestick
Environment	Indoor
