ORBIT

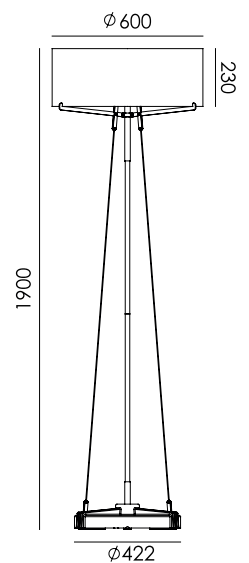

Design by Anton de Groof, 2017 / 2018

For its products Tonone often finds inspiration in old or existing mechanical techniques. For the creation of lamp Orbit the design team looked at the techniques used in the sailing world. Just like a sailboat's rigging that hold the mast in place, the Orbit lamp stands firmly because it is supported by three stays. In this way a large floor lamp is created, but without a massive appearance.

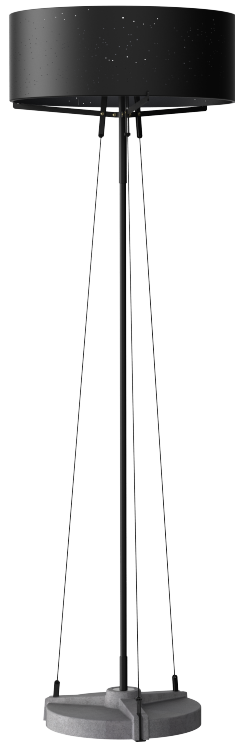

The self-designed LED light source, the shade inspired by navigating by the stars, and the fact that the lamp is shippable in a compact box, makes Orbit an elegant, unique and clever design.

Type	Floor lamp
Environment	Indoor
Material	Concrete, steel, aluminum & polycotton / steel shade
Cord length	2800 mm
Weight <small>black</small>	18,2 kg
Weight <small>under stars</small>	23,3 kg
Voltage	220-240 V
Max Watt	20 Watt
IP	20
Lightsource	24 V dimmable LED
Lumen	1500 up / 1500 down
Kelvin	2400 K
CRI	80
Dimmable	Dimmable on fixture
Packaging	
Length	80 cm
Width	46 cm
Height	59 cm
